THIRTY FIVE MILLION DRIVE OPENS SUNDAY

Washtenaw's Quota for Army
Y. M. C. A. is Twenty Thousand Dollars

COUNTY COMMITTEE
READY TO START WORK

Meetings Planned In More
Than Hundred School Dis-
tricts of County

The army Y. M. C. A. drive for \$35,000,000 in the United States will open Sunday. Washtenaw's quota is \$20,000.

The Washtenaw County organization has been completed and the men have already begun their work. It is expected that the patriotism of the county and the loyalty to the boys who have gone will result in more than raising the \$20,000 quota in the county.

The county executive committee is made up as follows:

Charles W. Wagner, chairman; Harold L. Westerman, secretary; H. J. Abbott, Thomas A. Lowry; Ray Bassett, Chairman of speakers' committee; J. M. Wells, Chairman of Publicity committee; Charles A. Slink, Roscoe O. Bonisteel, Ann Arbor, chairman; W. B. Hatch, Ypsilanti chairman; T. W. Bierberger, Chelsea chairman; E. C. Dresselhouse, Manchester chairman; F. L. Allen, Milan chairman; George Lehman, Setauket chairman; A. D. Miles, Dexter chairman.

It is planned to have meetings in each of the more than 150 school districts in the county.

There will be a large union meeting in Ypsilanti Sunday evening which will be addressed by J. M. Wells, and C. M. Robbins of Camp Custer.

The third ward meeting in Ann Arbor will be held at the Community Chapel Sunday evening and the address will be given by Hon. H. Wirt Newkirk.

There, perhaps, never has been a cause of more importance presented to the American people.

General Pershing says: "The greatest service that America can immediately render France is to extend the Association's work to the entire French army." The needs of the Italian troops, the need of the Russian soldiers, the need of the prisoners in Germany as well as the need of American soldiers make the raising of this fund imperative.

UNREST IN RUSSIA DUE TO HUNGER

Such Is Explanation of J. Ralph
Pickell Who Has Been
There

PEOPLE AND SOLDIERS
STARVING HE DECLARES

Believes Food Will Restore
Morale of the Soldiers In
Trenches

Chicago, Nov. 9.—Russia is hungry. That was the explanation of the unrest in that country given today by J. Ralph Pickell, who has just returned from Petrograd after a survey of the Russian food situation for Herbert Hoover.

"The people are starving, and so are the soldiers," declared Pickell. "But there is no lack of food. Transportation is adequate, but there has not been an intelligent application of the rules of distribution."

"If the United States wishes to do something real for the Russian people there will be a quick movement to help the Russians handle the food situation."

"I believe in Russia and I believe that if the army is fed as it should be, there will be a complete reorganization and a new morale. The big business men of Russia have not begun to lay hold of the situation, but they will when the moment comes. There are men of tremendous talent in Russia and it will be their work to establish the government as it will stand."

CUSTER MAN AT MASS MEETING

SECY ROBERTS WILL BE HERE

A private in uniform will also be present to represent the purpose of the organization.

SLAYER OF HUSBAND
MAY LOSE HER SON

Tragedy Resulted From Quarrel Over
Boy; Trial Next Week

Mineola, N. Y., Nov. 9.—Mrs. Bianca De Saules is fighting today to keep her son Jack De Saules, 5, from being delivered to the custody of Charles A. H. De Saules, her dead husband's brother.

Mrs. De Saules killed her husband in a quarrel over the boy. She goes to trial for murder Nov. 19. In her petition to the court she declares Charles A. H. De Saules unfit to have charge of her child—that his only home is a New York apartment where certain things happened that led to the divorce of John L. De Saules, the husband. It is expected more light will be thrown on these episodes at the De Saules murder trial.

WETS LEAD BY THREE THOUSAND

THAT IS REPORT OF LIQUOR
VOTE IN OHIO; RETURNS
STILL INCOMPLETE

Columbus, Ohio, Nov. 9.—Three thousand one hundred and nine. That is the majority the wets were leading with early this morning, as complete official returns on Ohio's prohibition election of Tuesday were being received by the secretary of state. Complete official returns from 62 counties with complete unofficial returns from the remaining counties early today showed: Dry 518,973; wet 522,082.

These figures credit the wets with changes made as result of "mistakes" discovered in Hamilton County.

KERENSKY STILL HAS SUPPORT OF RUSSIAN PEOPLE

Bolsheviki Fanatics, However,
Are Growing In Num-
bers

SET AGAINST WAR.
THEY HOLD PETROGRAD

Trotsky and Followers May
Sway Russian Population,
London Fears

By Ed. L. Keen
London Nov. 9.—Russia is back again where she was last March.

Bolsheviki fanatics, extreme radicals who burn at once to make the world a brotherhood, who are set against all wars, who believe in uttermost democracy, today seemed to control all Petrograd, the capital.

Premier Kerensky and what remains of the machinery of the provisional government, apparently still has support of the remainder of Russia.

The situation was regarded here as precisely parallel to the first few days following the revolution by which the czar was upset. Then it was Ivoft, Milukoff and other Liberals who first seized the outward symbols of government in Petrograd, while the old regime still clung to power in the old parts of Russia.

The danger, as London saw it today, was that Leon Trotsky and his fellow fanatics of the Bolsheviki would be able to extend their control beyond Petrograd and sway Russia's great peasant population, ignorant of the Utopian idealism of the Bolsheviki, to their side.

Kerensky was reported to have escaped the rebels in Petrograd. He was reported seen enroute to Moscow. It was believed here that he would name that city the capital and there endeavor to consolidate all Russia against the usurping group at Petrograd.

The Bolsheviki-controlled cable agency announced that the foreign minister, Tereschenko, Minister of Commerce Konovloff, Minister of Public Relief Kiskin, Minister of Justice Maliantovitch and Minister of the Interior Nikitin had all been arrested by the new revolutionary governing council of Petrograd. Other provisional government officials were detained.

Nicholai Lenine, radical fanatic, whose energies have always been regarded here as directed from Berlin, is firmly seated in power at Petrograd by the new revolution. Leon Trotsky, his co-partner in the coup by which the Bolsheviki overthrew control in the capital, has likewise come under previous suspicion as dominated by the Germans.

London it was regarded as practically certain that Trotsky and Lenine engineered their coup with Germany's direct aid. In this connection it was regarded as highly significant that cables yesterday reported a German fleet near Helsingfors, Finland.

Sveaborg, one of the great Russian naval fortifications, guards Helsingfors and is one of the chain of naval fortresses constituting the Baltic Sea defenses to Petrograd.

Kronstadt, the fortress nearest to Petrograd, has always been a fever pot of Bolsheviki strength. Once early in the summer, the garrison there revolted. Subsequently, in other Bolsheviki demonstrations in Petrograd, many of the paraders were Kronstadt sailors. Presumably Trotsky and his associates in the immediate peace plan are now supported by Kronstadt. If so, the German fleet would have no difficulty at all in sailing up to the Russian capital.

Because of this the fear is felt here that in pursuance of their crazy scheme of restoring peace to the whole world—or, possibly, in pursuance of plans of the German officials who hold Lenine, Trotsky and others in their power—the Bolsheviki would open the way to Petrograd to a German fleet and German reinforcements to their forces.

Heretofore the Bolsheviki have shown strength only in the larger cities like Petrograd and Moscow. The sentiment elsewhere throughout Russia for the faction has been negligible. The Petrograd council, (oviet) of workmen and soldiers has always been overwhelmingly Bolsheviki.

But the Russian Council of Soldiers and Workmen, an organization of all the local councils, has heretofore been anti-Bolsheviki. Attention was called today in connection with the Bolsheviki claim of endorsement by "the all-Russian body of the revolt, that only 260 members out of the full roster of 560 members were present."

he number is significant, it was stated, since 260 is exactly the strength of the Bolsheviki forces heretofore shown in that body. The Leninites and Trotsky supporters

NEW MILITARY ATTACHE—Brigadier General James D. Lachan, the new military attaché of the British Embassy, who has recently arrived in Washington and been received by President Wilson.

therefore laid their plans carefully, having only tried and true Bolsheviki members in attendance.

Civil war is certain in Russia but whether the war would be confined to Petrograd, or would rend the whole nation could not be predicted. In the meantime dread winter is fast coming to close its icy grip over the nation. With government utterly disorganized, Petrograd cut off from the rest of the nation, the whole population aligned in two groups and no organization for handling of food or of supplies and industry paralyzed, the country faces a winter of horror.

It was the belief that the Bolsheviki revolt would develop some liberal, holding Kerensky's views, but with a rough-handedness which Kerensky has lacked, who would practically assume a dictatorship in Russia, that furnished the only optimistic note here today.

RELIABLES PLAN ANOTHER YEAR

ANNUAL MEETING IS ENJOYED
BY BIG CLASS AT KOPKA
HOME THURSDAY

The annual meeting of the Reliabilities was held Thursday evening at the spacious and pleasant home of Mrs. Minnie Kopka on West Cross street when the following officers were elected: President, C. C. Richmond; Vice-president, A. E. Lewis; Secretary, Mrs. E. L. Sanderson; Treasurer, Leon Hathaway. The nomination of Fred H. Zeigen for class leader was made and the matter of election was left for the Sunlay School board.

The entertainment was given under the leadership of Mrs. J. B. Field and was a corn program, corn contests and conundrums, corn songs and readings, all assisting in carrying out the pleasing course of action.

Vocal numbers were given by Mrs. Roy Curtice and Miss Bernice Pettit with Mrs. Fred Schaefer and Miss Isabel Hutton accompanying at the piano. Read Pierce, pupil of Anthony Witmore, played two exquisite violin numbers with Miss Mildred Murray at the piano and Whittier's "Corn Song," was read by Mr. Richmond.

Floral gifts were presented by the hostess to all those on the program and unique prizes were given Mr. Richmond, Mrs. Hathaway and Read Pierce for highest honors in the contests.

A "war" luncheon was served which consisted of delicious corn bread, coffee and pickles.

The parlors were prettily decorated with corn stalks and corn combinations and compositions decorated every available space.

The evening was most delightful.

GERMAN SPY WORKING IN BOAT OFFICES

Advance Notice Believed to
Have Been Given of Raid
On Liner

OFFICIALS EXPECT TO
FIND SECRET RECORDS

Offices Being Prepared For
Port War Board and
Custodian

New York, Nov. 9.—That a German spy had advance notice of the raid on Hamburg-American Line offices here was believed today.

Attaches of the line had time to cart away several satchels full of documents before the seventy federal agents and policemen took possession.

Despite this, government officials said they expected to find, hidden in one of the safes, complete records of all American troop transport movements since this country entered the war. This, they said, would cause internment of several enemy aliens.

The offices today are being prepared for the Port War Board and the custodian of alien property who will soon move in.

STATE GETS BACK PAYMENTS

PERSISTENT EFFORTS FINALLY
WRINGS \$32,000 FROM DREDG-
ING COMPANIES

Persistence on the part of the state to collect from dredging companies payment for sand and gravel taken from the bottom of the lakes in Michigan has rewarded the state treasury with \$32,000 in back payments and it was learned today that it is expected the income from licensed sand and gravel companies will be \$25,000 next year.

Complaint of summer resorters of the noise of dredging operations put the state on the track of the diggers of wealth from the bottom of the lakes, particularly in the St. Clair flats, Alpena, Pentwater, White River, Muskegon, Grand Haven and Benton Harbor were among the places where operations were centered.

Paris, Nov. 9.—German attacks against Le Chaume Wood in Lorraine and the Arracourt sector, were repulsed by French troops, the war office reported today. The Le Chaume Wood attack was the most violent of the attempts, being preceded by a very heavy artillery bombardment, but the enemy here, as at other places on the line, was thrown back with very heavy losses indeed, wounded and prisoners.

French troops successfully carried out raids in the Argonne, on the left bank of the Meuse and in Upper Alsace, around the Sepois region.

New York, Nov. 9.—If Kerensky succeeds in getting away from Petrograd and establishing a new government he will be able to carry enough of the army with him to keep up a semblance of war—and that is the best we can ask of Russia at this time.

There will be no civil war in Russia—aside perhaps from some street fighting in Petrograd.

There are two kinds of soldiers in Russia—those who want to fight and those who don't—and it is just as hard to get the latter to fight the former as it is to get them to fight Germany. The czar mobilized too many men. He put twenty million men in uniform. The great problem facing Kerensky in October was how to get some of these men back to their homes.

WM. RYNEARSON WRITES OF WACO

YPSILANTI BOY, NOW ARMY SURGEON, RECEIVES HIS ASSIGNMENT IN SOUTH

The following letter has been received from Will Ryneerson, a former Ypsilanti boy, who has just received his assignment at Waco, Texas; as lieutenant surgeon in a field hospital.

Arrived here last night after spending three days on the road. Stopped over Tuesday night in St. Louis and saw the old Planters' Hotel where Gen. Grant used to stop and the slave market. They told me that they had not changed in 60 years and they certainly did look like relics.

When I left Indianapolis it was snowing but here the weather is fine. I don't need any coat.

I was given my assignment today—was assigned to a Michigan field hospital. Out of the bunch that reported that day I was the only one to draw a field hospital, which is by far the most desirable job in the bunch.

Think I am going to like it here as the climate seems ideal except for the occasional terrific sand storms which last for a few hours and you spend a week getting sand out of things.

Cotton and rice are both very abundant in the surrounding fields and it was a novelty to me to see the negroes picking cotton and baling it. Each bale of cotton is worth about \$250 so you see it doesn't take many bales to run up into money.

We are situated about 250 miles from the Mexican border and see plenty of Greasers on the streets. The city has about 5000 inhabitants.

CHANGING STYLES
WARRANT GREY HEARSE

Keeping With Present Tendencies
Mack and Mack Choose
Light Motor

Colors are replacing black in funeral furnishings. In discussing the changing business conditions, Atwood McAndrew today said that the tendency now is to avoid the old style black gasket, but rather in its place to select some of the many shades of grey. Even white, salmon, hellebore and blue are being used.

This selection of colors, while originally confined to the young, now is being called for in increasing proportion for adults of both sexes. This marked tendency to avoid the black effects prompted Mack and Mack to add a grey motor driven hearse to their equipment. When the firm of Mack and Mack was founded in 1871, over 41 years ago, five horses were necessary. Today a complete motor equipment has supplanted them.

Good Style

as Well as Wearing Qualities

You may have an idea that making a suit of clothes is comparatively an easy operation. And so it is, where ordinary clothing is concerned.

That's why most suits look ordinary. Occasionally, however, you see a man whose clothes strike you as being unusually fine in appearance and you conclude instantly that he has paid highly for them.

That may be true, of course, but a young man in Wortley's Clothes carries the same appearance without paying the big price.

Hart Schaffner and Marx is the highest order of style designing and making, added to the best possible fabric qualities.

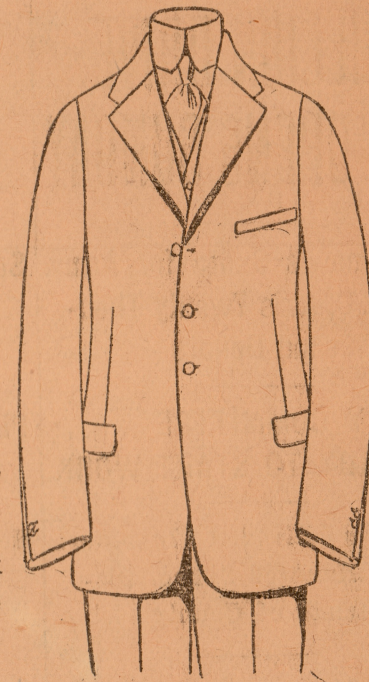

WEAR VARSITY FIFTY FIVE

Close and easy fitting models, in every size, all the latest stripe and check effects, plenty of fancy fabrics in grays, tans and browns.

DEPENDABLE THAT'S WHY IT IS WITH THE FIRST LINE OF DEFENSE

CALUMET BAKING POWDER

is now used in the U. S. Army and Navy. It is the brand used for bakings made on Uncle Sam's big battle-ships—it has been selected for foods for the men on the firing line. No higher tribute could be paid to the high quality and absolute dependability of Calumet. It is the final proof of Calumet's superiority.

It goes to show—and show positively—that the big demand for Calumet is founded on dependability—that the millions of housewives who use Calumet were not mistaken in their choice. The leader with the majority of American housewives—and the selection of critical experts of the military departments. Absolute evidence that it is the best baking powder obtainable.

Why not profit by that proof—and order a can today.

How Excellent!

Try using Instant Postum on the family table—serve it to your guests, and note their remarks.

It's a fact many times demonstrated that a cup of Postum well made is often mistaken for coffee and very frequently pleases better than the cup one has been accustomed to.

You can make Instant Postum, rich or mild, to suit individual preference by varying amount used per cup. And always you get a beautiful seal brown drink of delightful aroma and a full-bodied, snappy flavor that amply satisfies in every regard.

For coffee drinkers who find it necessary to abstain from coffee, and for children and others who delight in a strengthening, hot, meal-time cup on a cold day, there's nothing quite like

INSTANT POSTUM

Let your grocer introduce you to this pleasant beverage by ordering a tin from him now.

Made in America. No raise in price.

AUCTION SALE

By
Washtenaw County Holstein-Friesian Cattle Breeders' Club
Ypsilanti, Michigan

At Ypsilanti Farms, one and one-half miles west of City on Electric Line.

November 14 at 10 a. m.

The sale will comprise over Fifty Head, all registered, from the herds of the members of this Breeders' Club. Over half of the offerings are cows, a majority being either in the advanced registry (one or more over 25 pounds) or out of A. R. O. dams. They are fresh or bred to high class sires to freshen this fall and winter. The balance of the females are heifers under two years.

Fifteen "granddaughters" and six great granddaughters of King of the Pontiacs and Pontiac Korndyke are among the attractive offerings.

King Pontiac Jewel Korndyke No. 94134 will be offered, simply because the herd which he has headed for four years finds it necessary, to avoid inbreeding, to dispose of him. He is a son of King of the Pontiacs, the greatest living dairy sire, with more 30 pound daughters, more 40 pound daughters, and more A. R. O. daughters than any living sire. His dam is a daughter of De Kol 2d's Butter Boy 3d, and his granddam a daughter of Pontiac Korndyke. He has 10 A. R. O. daughters to his credit and many more coming on to test. This is an unusual opportunity for one or more breeders to procure a tested sire, gentle and all right in every way and right in his prime.

Besides "King" will be offered three young sires. Other sires represented in the breeding of offerings in this sale are: King Lunde Pontiac Korndyke 15th No. 142487, out of a son of King of the Pontiacs and a daughter of Pontiac Korndyke; Mercena De Nijlander No. 149013, out of a son of Pontiac De Nijlander (35 pounds); Sir Mina Korndyke No. 129169, a good son of Pontiac Korndyke; King Hartog Elzevire No. 70642; Vale Piebe, Paul De Kol No. 44673; Ordiello Lyons 2d's Count No. 35419; Woodcrest De Kol Lad No. 45103; Elzevire King of Butter Kings No. 71595.

NORMAL LOOKS
FOR HARD GAME

AGGIE FRESHMEN WILL GIVE LOCAL TEACHERS MORE THAN PRACTICE HERE SATURDAY

In anticipation of a hard battle with the Aggie Freshmen Saturday Coach Ryneason sent his Normal Gridders through a stiff scrimmage with the scrubs Thursday afternoon. The Scrubs using Aggie formations, were unable to gain consistently although at times they found openings in the varsity line for substantial gains. This did not worry Ryneason much, however, as four of the regulars who put up such a wonderful battle against Alma were not used in the scrimmage, being considerably mused up from bearing the brunt of the attack of Alma's heavy backfield.

The team is out to show the home folks that their miserable showing in the Olivet game was all a mistake and if they show the pep and fight that was displayed by them at Alma, the Freshies from Lansing are in for a very busy and exciting 60 minutes. The game will be played on Normal field and will be called at 10 o'clock in the morning.

Do you know why

That GILT EDGE FLOUR goes farther; makes more loaves to the sack, than other brands.

Because, it is made from Kansas Hard Winter Wheat that contains less moisture than Soft Winter Wheat; you do not buy so much water in the sack, you add it yourself.

To be convinced, order a sack from your grocer, who now has a stock.
